THE GREAT AND GRAND MAJESTIC RANGE THE RANGE WITH A REPUTATION MAJESTIC NEVER-BURN COOKER, STEAMER, CULLENDER AND DRAINER-TI

SET OF WARE FREE

F you will call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great and Grand Majestic Range, and will purchase one at the regular price, we will give you FREE the beautiful and useful Souvenir Set of Ware illustrated in this advertisement. This ware is made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this Set, especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during the Demonstration Week, only.

REASONS WHY THE GREAT MAJESTIC YOU SHOULD BUY

1st. It has the reputation of being the best range money can buy.

2nd. It not only has the reputation but is the best range made, and we will prove this to you if you will let us.

3rd. It is constructed of Malleable iron (material you can't beat) and of Charcoal iron (material that resists rust 300% greater than steel), is riveted together air-tight. No heat escapes or cold air enters range, thus uses very little fuel to do perfect work.

4th. The reservoir alone is worth the price of the range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left-hand lining, and is movable and sets on a frame, hence cannot wear out. When water gets too hot, it can be moved away from fire.

MAJESTIC RANGES use less fuel; heat more water—and heat it hotter; costs practically nothing for repairs; lasts three times as long; bake better; easier to keep clean and give better satisfaction than any other range on the market. If you knew positively that the above statements were true, wouldn't you buy a Majestic at once?

Come in during Demonstration Week and we will prove it to You.

Free Souvenir To any person (not children) who will allow the Majestic Man to show them the merits of the Great Majestic Range during our demonstration, we will give absolutely free a useful and beautiful Souvenir.

Three Important Questions.

The three most important concrete questions to come before the convention will be: First, the resolutions presented by the Pacific coast presidents and general secretaries, providing that any 10 percent of the tion shall have the right to file a referendum petition at any time within 90 days after an international conven-The argument for this is that at the conventions many of the associations are unable to have proper representation and therefore are not participants in making the laws which govern the institution's activities. Second, a further discussion of the "Evangelical Test" proviso, which restricts active management and control of the Y. M. C. A. work to members of Protestant churches. Third, plans for the advancement of the "Men and Religion Forward Movement," a campaign which is to be set in motion in September, 1911, and continue through May, 1912, During that time it is hoped to bring! to Christ and the church 100,000 men and boys; to double the enrolment of the Bible classes; and to add a conclusive testimony to the essential real-
